🚗 B

Hard Skills

•Css3. •Html5 •JavaScript •React.js

•SEO •Responsive •API •Git •UI

•Github •Bootstrap •VSCode

Soft Skills

ADAPTABILITY :Able to adjust quickly to new challenges

COLLABORATION : Working effectively with team

CRITICAL THINKING: Able to analyse situations to make informed decisions.

PROBLEM-SOLVING: Proficient in identifying and solve complex issues.

Achievements

2nd place on Girlcode hackathon 2023

Profile

Embarking on my coding journey at SheCodes foundation was just the beginning. The thrill of winning second place at the Girlcode hackathon 2023 fueled my passion, propelling me into the dynamic world of development. Through Kreativstorm's hands-on training program , I honed my collaborative skills, transforming challenges into opportunities for growth. I stand as a testament to the transformative power of teamwork, ready to bring fresh perspectives and innovative solutions to your team.

Education

Frontend development   **May 2023 - Present**
SheCodes Foundation
I've mastered CSS3, HTML5, JavaScript, and React.js, crafting dynamic, user-friendly web applications. This journey deepened my skills in version control, deployment, and responsive design, igniting a passion for innovative digital experiences.

Grade 12   **Jan 2014 - Dec 2015**
Gobe Commercial High

Employment

Police officer   **Mar 2019 - Present**
South African Police Service, Cape Town
I have a strong foundation in problem-solving, critical thinking, and effective communication. These skills, coupled with my commitment to excellence, drive my work in creating user-friendly and impactful digital experiences.

Professional Development

In Kreativstorm's hands-on training, I enhanced my collaboration skills, working seamlessly with global teams across different time zones. This experience not only boosted my confidence in using GitHub but also deepened my proficiency in various programming languages.

Scholarship

Software developer   **Aug 2024 - Present**
Power Learn Project
I am currently honing my skills and gaining practical experience as a Software Developer student at PLP. This opportunity allows me to apply my knowledge in a professional setting, working in real projects and collaborating with other developers.
